

All Guild Members and workshop attendees are invited to attend a lecture by Jennifer Moore.

Wednesday, May 23<sup>rd</sup>  
6:30 p.m.

Chagrin Falls library  
Main floor Meeting Room  
100 East Orange Street  
Chagrin Falls, OH 44022

***Chromatic Fantasy: Music, Mathematics and Magic in Doubleweave***

For more than 30 years Jennifer Moore has been exploring relationships between weaving, mathematics, and music in her doubleweave wall pieces. In this multi-media presentation, Jennifer will show how she has used doubleweave pick-up as a medium for her geometric designs and color harmonies. She will explain the basic principles of the golden proportion, symmetry movements, tessellations and fractals, and show how she has used them in her work. The program will culminate with an animated video of her weavings dancing to the music of Bach.
